Star Wars: Galaxy's Edge Fact Sheet

Overview

Star Wars: Galaxy's Edge is the largest single-themed land ever created in a Disney park, opening in summer 2019 at Disneyland Resort and fall 2019 at Walt Disney World Resort.

Black Spire Outpost on the Planet Batuu

- Batuu is a far-flung destination along the galaxy's Outer Rim, on the frontier of Wild Space – the uncharted region beyond all known star systems.
- Batuu is home to Black Spire Outpost, an infamous port for smugglers, traders and adventurers. Off the beaten path, this outpost has become a haven for the galaxy's most colorful — and notorious — characters. Guests may see some familiar faces, from Rey, Finn, and Poe to BB-8 and Chewbacca, and even find themselves in a face-off with Kylo Ren himself.
- When guests arrive at Black Spire Outpost, they will encounter aliens, droids and other inhabitants of Batuu as they search for rare and unique goods, discover unusual food and drink, or join a crew seeking adventures.
- Guests may engage in missions, games and in-queue experiences while visiting Black Spire Outpost using the Play Disney Parks mobile app.* These interactions throughout the land will make *Star Wars: Galaxy's Edge* one of the most engaging and captivating guest experiences in Disney Parks history.

Two Thrilling Attractions

- In ***Millennium Falcon: Smugglers Run***, guests will climb into the cockpit of “the fastest hunk of junk in the galaxy” for their own *Star Wars* adventures. They will take the controls of the *Falcon* in one of three unique and critical roles as the ship hurtles through space. Some will be pilots, some gunners and some flight engineers, creating multiple ways for guests to experience the attraction.
- ***Star Wars: Rise of the Resistance*** is one of the most advanced and immersive experiences ever undertaken by Walt Disney Imagineering. As new Resistance recruits, guests will join a climactic battle against the First Order, including a faceoff with Kylo Ren. Their journey takes them inside a full-size starship and aboard a nearby Star Destroyer.

Galactic Food and Beverage

- At **Oga's Cantina**, even the blaster-bolt scorches on the walls tell a story. Here, guests will gather to share their tales from around the galaxy as they enjoy exotic beverages served in unique vessels and listen to spirited musical entertainment provided by DJ R-3X, otherwise known as Rex, the former Starspeeder 3000 pilot droid from the original *Star Tours*. Rex re-invents himself as the cantina's DJ, and he's as quirky and talkative as ever.

Page 2 – Star Wars: Galaxy's Edge Fact Sheet

- A multi-purpose transport shuttle docked on top of a large hangar will beckon guests into **Docking Bay 7 Food and Cargo**, a designated location for traveling food shuttles. Chef Strono "Cookie" Tuggs is in much demand for his culinary skills, so he moves from site to site in a modified Sienar-Chall Utilipede-Transport that becomes a mobile kitchen and restaurant. His travels across the galaxy allow him to fill his pantry with exotic ingredients he uses to make new and unusual dishes. He is proud to present Tuggs' Grub, a "traveling diner for diners traveling," inspired by dishes he created during his time working for Maz Kanata on Takodana.
- In the Black Spire Outpost market, **Ronto Roasters** will draw attention from passersby with its large podracing engine firing up a barbecue pit for mouth-watering Ronto sandwiches. When hungry customers queue up to order, they will encounter a former smelter droid, carefully turning the spit of meats. Guests will also be able to choose from a variety of exotic non-alcoholic drinks like the Sour Sarlacc or Tatooine Sunset.
- Elsewhere in the market, the **Milk Stand** will offer two local favorites – blue milk and green milk. Blue milk was first seen in "*Star Wars*: Episode IV – A New Hope" when Luke Skywalker sat down for a family meal. Green milk was introduced in "*Star Wars*: Episode VIII – The Last Jedi" when Luke lived on the planet Ahch-To. Now, thirsty guests will be able to order these colorful drinks as they live their own *Star Wars* adventures.
- Guests will walk through a bustling street market, where vendors offer various local delicacies, including an Outpost Mix of uniquely flavored popped grains from **Kat Saka's Kettle**, a unique popcorn snack with a combination of sweet, savory and spicy flavors.

The Lively Market of Black Spire Outpost

- The **Droid Depot** will invite guests to construct their own astromech droids. Patrons will pick pieces and parts off a conveyor belt to build one of two core models (R-series or BB-series) and they can customize their droids with various parts and colors. These droids will be capable of interacting with elements in the land, responding to guests' adventures. Additional programming chips and accessories can be added to further customize these new friends. In addition, the Droid Depot will offer pre-built droids, droid-inspired products and more.
- At **Savi's Workshop – Handbuilt Lightsabers**, guests will have the opportunity to customize and craft their very own lightsabers. In this mystical experience, guests will feel the Force as they build these elegant weapons from a more civilized age.
- Inside **Dok-Ondar's Den of Antiquities**, guests will find a selection of rare and mysterious items for sale representing different eras of the *Star Wars* galaxy, including holocrons, ancient Jedi and Sith artifacts, lightsabers and more. As they explore the nooks and crannies of the shop, guests will also see Dok at his desk as the large Ithorian checks his inventory, takes incoming calls and barks the occasional order at his assistants.
- The **Creature Stall** is dedicated to the plethora of rare and fascinating creatures that populate the galaxy, as well as **Black Spire Outfitters**, showcasing the latest in accessories.

- **Toydarian Toymaker** is a stall full of toys crafted by a Toydarian (the flying alien species first seen in “Star Wars: Episode I – The Phantom Menace”).
- **Resistance Supply** is a “makeshift” supply location at the Resistance’s hidden command area. The stall sells Resistance pins, badges, hats, and other accessories to help guests feel like part of the cause.
- **First Order Cargo** is a temporary First Order storage dock near the market. Easily identified by a never-before-seen First Order TIE echelon, the cargo location will offer guests a chance to pledge their loyalty by purchasing pins, caps, gear, model ships and more.

Play Disney Parks Mobile App Deepens Guest Engagement with the Land

- *Star Wars: Galaxy's Edge* is the first land within a Disney park designed to integrate with the Play Disney Parks mobile app*, which debuted last year and offers interactive adventures and experiences that bring surrounding environments to life at Disneyland Resort and Walt Disney World Resort.
- When guests opt in to use the app, it will provide new opportunities for them to engage with the land, such as translating a galactic language, learning what's hidden inside crates and containers, or accomplishing certain tasks by participating in missions.
- Guests also can use the Play Disney Parks app to interact with a variety of elements in *Star Wars: Galaxy's Edge*, such as droids, ships, media screens, door panels, antenna arrays – even drinking fountains.

Iconic Musical Score

- The music for *Star Wars: Galaxy's Edge* will feature original themes created especially for the land and its attractions by Academy Award®-winning composer John Williams.
- Along with a collection of original cantina songs created by composers and songwriters from around the globe, this new music will deepen guests’ connection to the land as Williams complements and builds upon the iconic fanfares he created for the *Star Wars* films.

###

Experiences subject to availability and capacity constraints.

** Message, data and roaming rates may apply. Availability subject to handset limitations, and features may vary by handset, service provider or otherwise. Coverage and app stores not available everywhere. If you're under 18, get your parents' permission first. Some features require separate theme park admission. Some experiences require in-app purchases.*
